

Your Money Bag

may in your estimation be a safe place to keep your funds, but did you ever consider the risk you are taking? No matter how safe you may think the hiding place thieves seem to have a natural gift of locating same, not to mention the risk by fire. Remember, money burned cannot be recovered. Why then take unnecessary risks, when by entrusting your saving to us you will eliminate all unnecessary risks. The long standing and honorable record of this institution, as well as the representative men in charge of same should commend us to the most skeptical.

THE AUGUST AMERICAN MAGAZINE

The August American Magazine is a fiction number and leads off with the first installment of a new serial by Inez Haynes Gillmore entitled "Angel Island." Mrs. Gillmore is the author of the celebrated "Phoebe and Ernest" stories. The scene of this new story is laid on an uninhabited island where, owing to a shipwreck, five men are stranded and there put to work out their problem under primitive conditions. In the course of the story five women are to be introduced into the community and the tale is to center around the solution under the various difficulties that arise. Mrs. Gillmore is an ardent suffragist, and while in her new story the romance is always paramount, the story symbolizes the whole feminist movement with a vividness, a concreteness, impossible in the most ably written narrative of fact.

John A. Moroso writes a remarkable short story having to do with a fire in a skyscraper; John Taintor Foote writes a horse-race story; and William Hawley Smith contributes a rat story. George Fitch, Stephen Leacock and James Montgomery Flagg—all humorous writers—present stories and sketches.

Some say we have a new road boss, but we are led to wonder if it is true. He has not been seen or heard of. The roads are in a very bad condition. Just last week two men driving in a buggy went in a ditch on the main road leading to Monett, throwing one of the men out and hurting him quite badly.

It seems out of question for the poor farmers to get a square deal. He takes in his produce to the grocery man each week, part of the time gets docked so much on chickens, eggs and butter and pays the same for his groceries as the city folks who only pay their bills once each month and gets a sack of candy as a reward for their faithfulness. The poor farmers who live and let live never see any sacks of candy. This is noticeable because he pays his bills as he goes, we presume.

A number of young folks went on a hay ride to Peirce City to the band concert Saturday night.
